

AIRWAVE RADIO CONSOLE

A Solution for Fall Back & Desk Top Fixed Terminals

Enquiry Desk Radio Console

House and protect your Tetra Radio Terminal in this rugged self contained unit

Remote Control

Upgrade to remote control with our range of multi channel desk top and screen based dispatchers

LAN Connection

Connect radios over your existing TCP/IP LAN or WAN with our remote control panels

To provide reliable communications access to the Airwave network at enquiry desks, football grounds and temporary incident controls, Cyfas have designed a range of rugged radio consoles.

Using a range of radio terminals, the console provides full access to the radio front panel so that no features are lost. It is easy to use in any desk top installation such as an enquiry desk.

Features:

- Internal mounted power supply
- Easily transported as a single unit
- Can be fitted with an optional standby battery
- Provides connections for a handset or headset
